

# CLAUSE LOGIC SERVICE

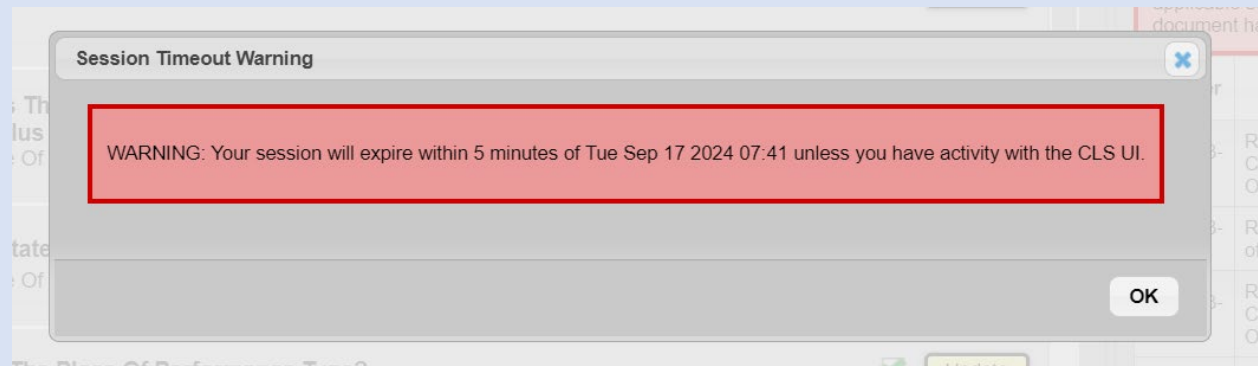

## CLS ALERT-15

### OCTOBER 11, 2024

#### **CLS Auto-Save Added During Timeout Warning**

Cybersecurity requirements mandate timeout of a user's session after 15 minutes of inactivity. While it is always good practice to save your work often, CLS has an auto-save feature that saves each time a section of the Interview is completed. To help prevent loss of work, an additional feature has recently been added to auto-save when the session timeout warning dialog is displayed.

#### **CLS Training Videos Now Available On The DoD Procurement Toolbox**

The CLS Program Management Office (PMO) has published a suite of CLS training videos on the [DoD Procurement Toolbox](#). These videos cover the end-to-end process for creation of clause sets and are available on demand whenever you need them. As part of this effort, the CLS PMO has also reorganized the [DoD Procurement Toolbox](#) to make it easier to explore the available content.

The training is delivered through the following thirteen videos, with each targeting specific content in short measure:

1. Welcome to CLS (Dashboard Overview)
2. Auto Answer vs. Natively Created CLS User Interface (UI) Documents
3. Create Clause Set for Solicitation or Award
4. Create Clause Set for Award from Solicitation
5. Create Clause Set for Task Order/Delivery Order/Call
6. Create Clause Set for Amendment
7. Create Clause Set for Modification
8. Create Clause Set Using Question & Answer Master
9. Interview Process
10. Review/Add/Delete Deviations & Clauses
11. Document Revalidation and Updates to Clauses
12. Completing Fill-Ins
13. Exporting Clause Set

**NOTE:** The term “Clause” means both provisions and clauses in the context of CLS.
