# Item Unique Identification (IUID)

**Serves as an acquisition gateway to identify:**

- ✓ *Description of the item*
- ✓ *How and when the item was acquired*
- ✓ *Acquisition cost of the item*
- ✓ *Current custody (GFP or Government)*
- ✓ *How the item is marked*
- ✓ *Embedded items (as of acceptance and as of transfer of custody)*
- ✓ *Warranty flag*

# IUID Registry Purpose

## New Acquisition

- **DODI 8320.04** — Updated September 2015:
  - “The unique item identifier (UII) will be used globally as the common data key in financial, property accountability, acquisition, and logistics (including supply and maintenance) automated information systems to enable asset accountability, valuation, life-cycle management, and counterfeit materiel risk reduction.”
  - “c. Prescribes the DoD IUID Registry as:
    - (1) The central repository for government items with UII acquired after January 1, 2004, and for UII data elements established at delivery in accordance with subpart 252.211-7003 of Defense Federal Acquisition Regulation Supplement (DFARS) (Reference (d)), referred to throughout this instruction as DFARS.”

# DFARS Clause New Acquisition

- **252.211-7003** – Updated December 2013
  - New Acquisition items that are delivered to the Government that meet one of the following three criteria:
    - \$5,000 or more in value
    - Mission Essential
    - Serially Managed

# IUID Registry Purpose Government Furnished Property

- **DODI 4161.02** — Updated April 2012
  - “4. PROPERTY REPORTING. The DoD Components shall:
    - a. Require contractors to report GFP to the DoD IUID Registry and its integral GFP Module in accordance with subparts 211.274-4 and 252.211-7007 of Reference (d).
    - b. Use the DoD IUID Registry and its integral GFP Module as the master data source for reporting GFP in custody of contractors to:
      - (1) Conduct and report transfers of Government contract property accountability in accordance with the procedures in subpart 245.103-71 of Reference (l).
      - (2) Ensure contractor reporting of GFP that meets the requirements of subpart 252.211-7007 of Reference (d).”

# DFARS Clause

## Government Furnished Property

- **252.211-7007** – Updated February 2013
  - “Beginning January 1, 2014, report-
    - (i) All serially managed Government-furnished property, regardless of unit-acquisition cost; and
    - (ii) Contractor receipt of non-serially managed items. Unless tracked as an individual item, the Contractor shall report non-serially managed items to the Registry in the same unit of packaging, e.g., original manufacturer’s package, box, or container, as it was received.”

# How Items are Classified and Recorded in the IUID Registry

**New Acquisition** – Newly delivered items to the Government which are valued over \$5,000, DOD serially managed or mission essential.

**Government Furnished Property** – Property in the possession of, or acquired by the U.S. Government. Can be categorized as UII'd or Non-UII'd and furnished for performance of a contract.

**Legacy** – DOD-owned items that have already been produced, deployed for use and were not previously required to have IUID registration at the time of delivery.

# How Items are Classified and Recorded in the IUID Registry (Cont.)

**End Items** — A New Acquisition, Government Furnished Property of Legacy type item with an UII which is not embedded into any item. An End Item can have Embedded Items.

**Embedded Items** — A subgroup of New Acquisition, Government Furnished Property or Legacy type items. Embedded Items are subassemblies, components or parts that are integral to the End Item it serves.

# Methods to Submit Data - iRAPT

## iRAPT (Invoicing, Receipt, Acceptance and Property Transfer)

- iRAPT is a web-based data submission tool for transmitting contract payment information. This site enables authorized Defense contractors to submit New Acquisition items and to record property transfers of Government Furnished Property (GFP) items only.
- Requirements:
  - Must be a vendor under contract, delivering items to the DOD.
  - Register for an iRAPT account in the WAWF e-Business Suite

### Items Accepted:

- New Acquisition
- Government Furnished Property (Non-UII)

### Items Updated:

- Government Furnished Property (Custody)

# Methods to Submit Data – IUID Registry

## IUID Registry

- The IUID Registry application located in the WAWF e-Business Suite is a web-based tool for submitting data and retrieving query results for items previously registered. This application enables Defense contractors and DOD personnel to submit data, record updates to previously registered items and run queries for reconciling purposes.
- Requirements:
  - Must be a vendor, DOD Employee or DOD Sponsored Contractor
  - Register for an IUID Registry account in the WAWF e-Business Suite

### Items Accepted:

- Government Furnished Property
- Legacy
- Embedded Items

### Items Updated:

- New Acquisition End Item
- Legacy
- Government Furnished Property
- Embedded Items
- Government Furnished Property (Non-UII)

# Methods to Submit Data - GEX

## GEX (Global Exchange)

- DLA Transaction Services Global Exchange (GEX) access is recommended for volume submission of IUID data. DOD agencies and commercial vendors participate in server to server automatic transfer of IUID items. The two protocols for submitting IUID data with a GEX account are SFTP and HTTPS with the file format of XML or Flat File. The files can either be “pushed” by your server or “pulled” by DLA Transaction Services GEX. Any organization that wishes to connect must follow the security guidelines as outlined in the agreement between the organization and DLA Transaction Services.

### Items Accepted:

- Government Furnished Property
- Legacy
- Embedded Items

### Items Updated:

- New Acquisition End Items
- Legacy
- Government Furnished Property
