Disclaimer

This information should not be construed as changing or modifying any statute, regulation, DoD policy or guidance, or any term(s) of any contract with the U.S. Government or any department or agency of the U.S. Government

Topics

- ◆ **Background**
- ◆ Item Management View Only
- ◆ Item Management Update Condition Code/CLIN
- ◆ Item Management Embed/Consume Items
- ◆ Item Management Query
- ◆ Resources

The prerequisite for this training is the Property Transfer for Contractors course available here: <https://dodprocurementtoolbox.com/site-pages/gfp-training>. Before items are visible in the Item Management capability area, they must be receipted in Property Transfer

Policy: Property Clauses in Contracts

- ◆ FAR 52.245-1 **Government Property**, in all cost type and T&M solicitations and contracts, and in labor hour and fixed-price solicitations and contracts when the Government will provide property
- ◆ FAR 52.245-9 **Use and Charges**, in solicitations and contracts when the clause at 52.245-1 is included
- ◆ DFARS 252.245-7003 **Contractor Property Management System Administration**
- ◆ DFARS 252.245-7005 **Management and Reporting of Government Property** (effective 22 Jan 2024)
- ◆ DFARS Appendix F **WAWF RRR** will capture the shipment of Government-furnished property items after acceptance of repair service

DFARS clauses 252.245-7001, 7002 and 7004 and 252.211-7007 have been consolidated into the new clause
<https://www.federalregister.gov/documents/2023/12/22/2023-27939/defense-federal-acquisition-regulation-supplement-consolidation-of-dod-government-property-clauses>

Requirement for Contractors to report receipt/shipment to the GFP Module

Until the new clause is incorporated in a contract, the previous policy also requires reporting to GFP Module

252.211-7007 Reporting of Government-Furnished Property (Mar 2022)

As prescribed in 211.274-6(b), use the following clause:

(f) *Procedures for reporting of Government-furnished property.* Except as provided in paragraph (c) of this clause, the Contractor shall establish and report to the IUID Registry the information required by FAR clause 52.245-1, paragraphs (e) and (f)(1)(iii), in accordance with the data submission procedures at

https://dodprocurementtoolbox.com/cms/sites/default/files/resources/2021-09/GFP%20Reporting%20Guide_Vendors_June%202018.pdf

Reporting Government Furnished Property Vendor Guide:

3.1.1 GFP Module Implementation

Reporting of receipt for all GFP, and reporting of shipment, and transfer to other contracts of serially managed GFP as required by DFARS 252.211-7007 is conducted through the GFP Module. When an item with a registered UII is reported as received by a contractor, the GFP Module automatically updates the custody record for that item in the IUID Registry. Contractors should report receipt of all GFP to the GFP Module. There should be no reporting of GFP receipt to the IUID Registry.

Highlights of Consolidated Clause

- **Requires all GFP to be reported to the GFP Module**
 - Receipt
 - Transfer to another contract (after contract mods have been executed)
 - Shipment
 - Incorporation of Serially Managed items into higher assembly
 - Property Loss
 - Plant Clearance
 - Request to buy back or convert CAP to GFP
 - **Eliminates direct Reporting of GFP into the IUID Registry**
- Clarifies GFP marking requirements
- Standardizes reporting time frames to support audit requirements
- Reduces DFARS Property Clauses from 5 to 2
- Eliminates multiple paper form requirements
- Requires use of CAP Pre-screening Tool

The GFP Attachment

- ◆ **Formalizes the “deal” of what property will be provided to the Contractor; Authorizes Contractors to have custody of Government Property**
- ◆ **Available in the GFP Module for view only; also uploaded to EDA**
- ◆ **Identifies the type and quantity of Government Property the Contractor is allowed to have over the life of the contract**
- ◆ **Identifies which items are serially managed versus non-serially managed for Contractor reporting under DFARS 252.211-7007**
- ◆ **Available for pre-population of receipt and shipment documents**

Roles and Capability Areas for Contractor Reporting in accordance with DFARS 252.245-7005

Item Management Capabilities

A screenshot of a web application's navigation menu. The menu has a dark blue header with the following items: "Item Management" (highlighted in yellow), "Requisition", "Lookup", and "Documentation". Below the header, a dropdown menu is open for "Item Management", showing three options: "Contractor Item Manager" (with a right-pointing arrow), "Manage Accountable Items" (highlighted with a red box and a document icon), "GFP Attachment (View Only)" (with a magnifying glass icon), and "Item Management Queries" (with a bar chart icon). To the right of the menu, three arrows point from the highlighted options to their descriptions: "View or take action on items in the Contractor's Accountable Items list" for "Manage Accountable Items", "View GFP Attachment" for "GFP Attachment (View Only)", and "Execute, view, download queries" for "Item Management Queries".

Update Condition Code/CLIN

- **Captures Repair Process progress**
 - Common repair events:
- **Condition code is required when reporting receipt of reparable in the Property Transfer receipt capability area**

These Condition Codes are typical Condition Codes for Reparables:

- Receipt Unserviceable - Condition Code F
- Receipt Serviceable - Condition Code A
- Induction – Condition Code M
- Awaiting Parts – Condition Code G
- Re-Induct - Condition Code M
- Complete/Serviceable - Condition Code A
- Ship Serviceable - Condition Code A
- Ship Unserviceable - Condition Code F

A screenshot of a web application interface titled "Contractor Item Manager - Search Accountant". Below the title bar, there is a section labeled "Action *". A dropdown menu is open, showing several options: "Update Condition Codes/CLIN" (which is highlighted in blue), "--- Please Select ---", "View Only", "Embed Items", and "Recall Embed". The dropdown menu is styled with a light blue border and a white background.

Engine 7 was receipted in F condition; it is now being inducted for repair

Select Condition Code

Any Condition Code may be selected from the drop down. To Induct an item, select Condition Code M. See info button for condition codes related to common repair processes.

Condition Code M indicates induction and requires entry of a CLIN and the DoDAAC performing the induction.

Estimated completion date is optional; contractor reference number is for use if there is an internal tracking number. The contractor reference number is searchable.

Help - Condition Code

These Condition Codes are typical Condition Codes for Reparables:

- Receipt Unserviceable - Condition Code F
- Receipt Serviceable - Condition Code A
- Induction – Condition Code M
- Awaiting Parts – Condition Code G
- Re-Induct - Condition Code M
- Complete/Serviceable - Condition Code A
- Ship Serviceable - Condition Code A
- Ship Unserviceable - Condition Code F

Item Awaiting Parts Process

If a repair cannot be conducted because the contractor is missing parts to repair the reparable end item, the item is put into Condition Code “G” and the contractor identifies the absent parts

Embed or Consume

- **Embed: Installation of an item of GFP into a higher assembly; embedded item is removed from contractor's accountable items**
 - Serially Managed items (required by DFARS)
 - Ull'd
 - Non-Ull'd; report serial number
 - Non Serially Managed
 - Select individual parent or entire line
 - Future capability will be to transmit transaction to APSR
- **Consume: Reporting of a GFP items that have been used up during contract performance**
 - Generally non-serially managed items or consumables
 - Partial or total quantity of Product ID
- **Can be “undone” using “Recall Embed”**

Select Item to Embed or Consume

Select “Embed Items” on Action dropdown
Contract Number or CAGE is required.
All other search criteria are optional
