

UNIT OF ISSUE AND PURCHASE UNIT CONVERSION TABLE

The Department of Defense (DoD) will continue to support the familiar DoD unit of issue and purchase unit codes within DoD logistics systems. This conversion table must be used to translate DoD code values into valid ANSI ASC X12 code values for transmission. The sender and the receiver must employ the conversion guide so that the internal DoD user or Federal/Civil Agency user under FEDSTRIP sees only the familiar DoD code values. The ANSI ASC X12 codes listed below are assigned under ANSI ASC X12 Data Element 355, Unit or Basis for Measurement Code. Pages 1 and 2 sorted by DoD Code (in bold), 3 and 4 sorted by X12 Code.
